**Community Service Announcement**  
**Community Service Announcement Phone Message Service**  
**Phone 1800 123 695**

Snowy Hydro regards its communications with our various stakeholders and the local community as a high priority. With this in mind, we have now established the Snowy Hydro Community Service Announcement phone message service that will enable those in the community without access to the local media, or the web, to listen to the latest Snowy Hydro Community Service Announcement by telephone.

The Community Service Announcement phone message service will provide an updated recorded message that will compliment our existing modes of local communications via our public website at [www.snowyhydro.com.au](http://www.snowyhydro.com.au) and announcements on the local radio and press.

The recorded Snowy Hydro Community Service Announcement phone message service can be accessed by phoning **1800 123 695**.
