Environmental Water Releases into the Snowy River

The NSW Government has decided that, as an interim measure for water conservation, the environmental flows being released from Jindabyne Dam should be suspended until further notice. The NSW Department of Water and Energy, being the Licensor under the Snowy Water Licence, has directed Snowy Hydro to make arrangements to reduce the 'Increased Flow Requirements' to a minimum leaving only the Jindabyne Base Passing Flow and the riparian releases from the Mowamba River on and from 1 November 2007.

Up to date information on environmental water releases can be found on the Snowy Hydro web page at www.snowyhydro.com.au
