Environmental Water Releases into the Snowy River

Snowy Hydro has received further notification from the NSW Department of Water and Energy not to undertake its directions of 30th October 2007, until further notice.

Therefore, in accordance with the requirements of the Annual Water Operating Plan, environmental flows into the Snowy River will return to around 95ML/Day, starting on and from 1st November 2007.

Up to date information on environmental water releases can be found on the Snowy Hydro web page at www.snowyhydro.com.au
