## **Community Service Announcement**

### **Jindabyne Dam Works**

Snowy Hydro wishes to advise the local community that the removal of the temporary Coffey Dam at the Jindabyne Dam site has been deferred until after winter 2008. Works are now expected to commence late 2008/early 2009 depending on inflows over winter and spring and resulting lake levels.

The removal works have been delayed to allow for the finalisation of approvals and to minimise any potential traffic delays over this coming winter. The deferral of the removal works will not effect lake operations or environmental flow releases into the Snowy River.

The community will be informed of the project start date and traffic management plans later this year with up to date information available on the Snowy Hydro web page at [www.snowyhydro.com.au](http://www.snowyhydro.com.au)
