

Cabramurra Sewage Treatment Plant Final Discharge - Grease and Oil EPL 10379 Point 2

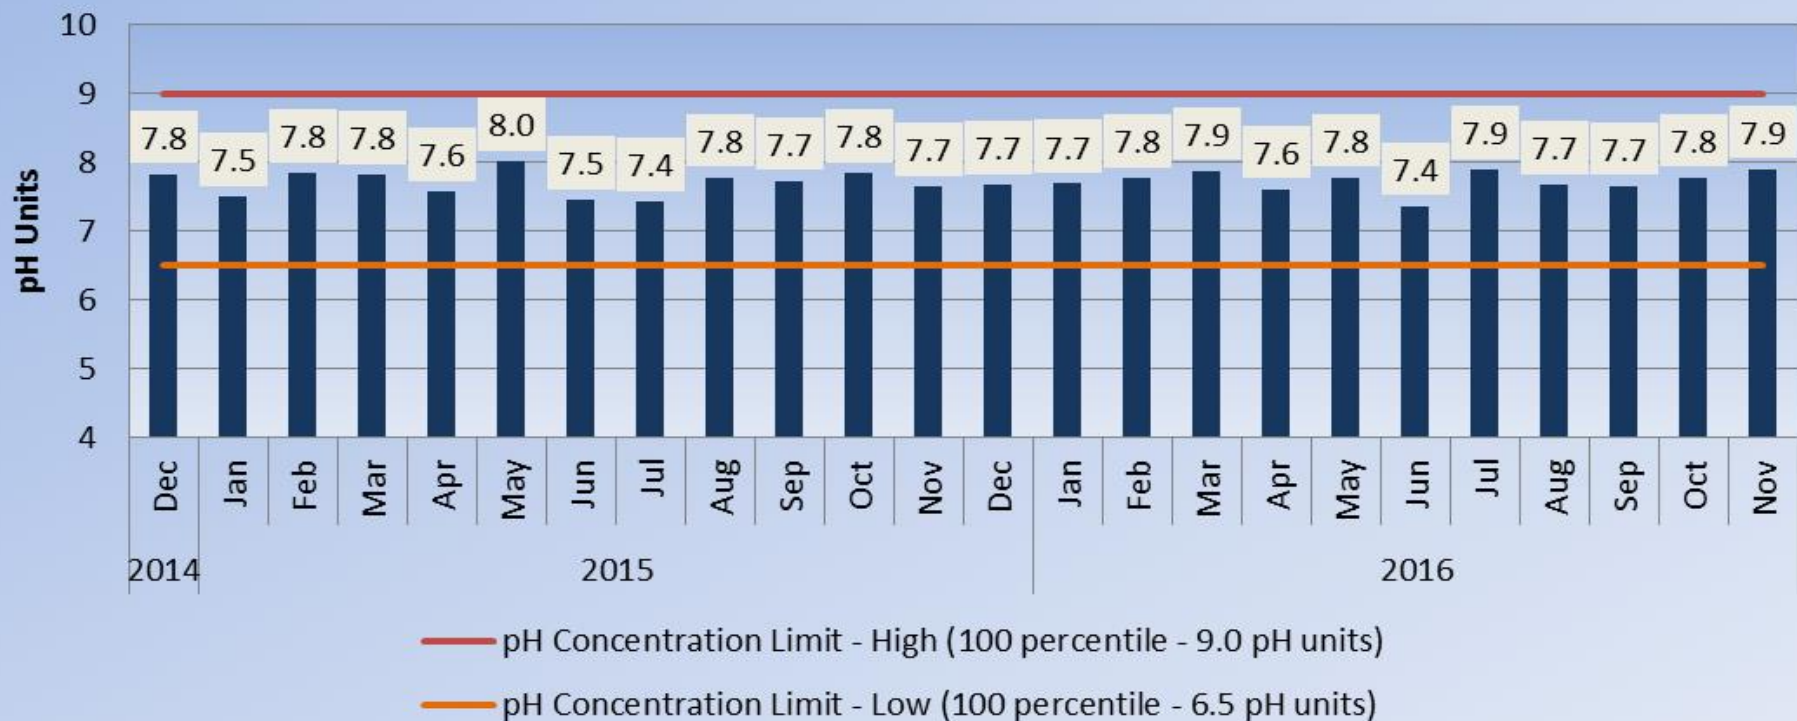

Sample collected immediately after UV treatment

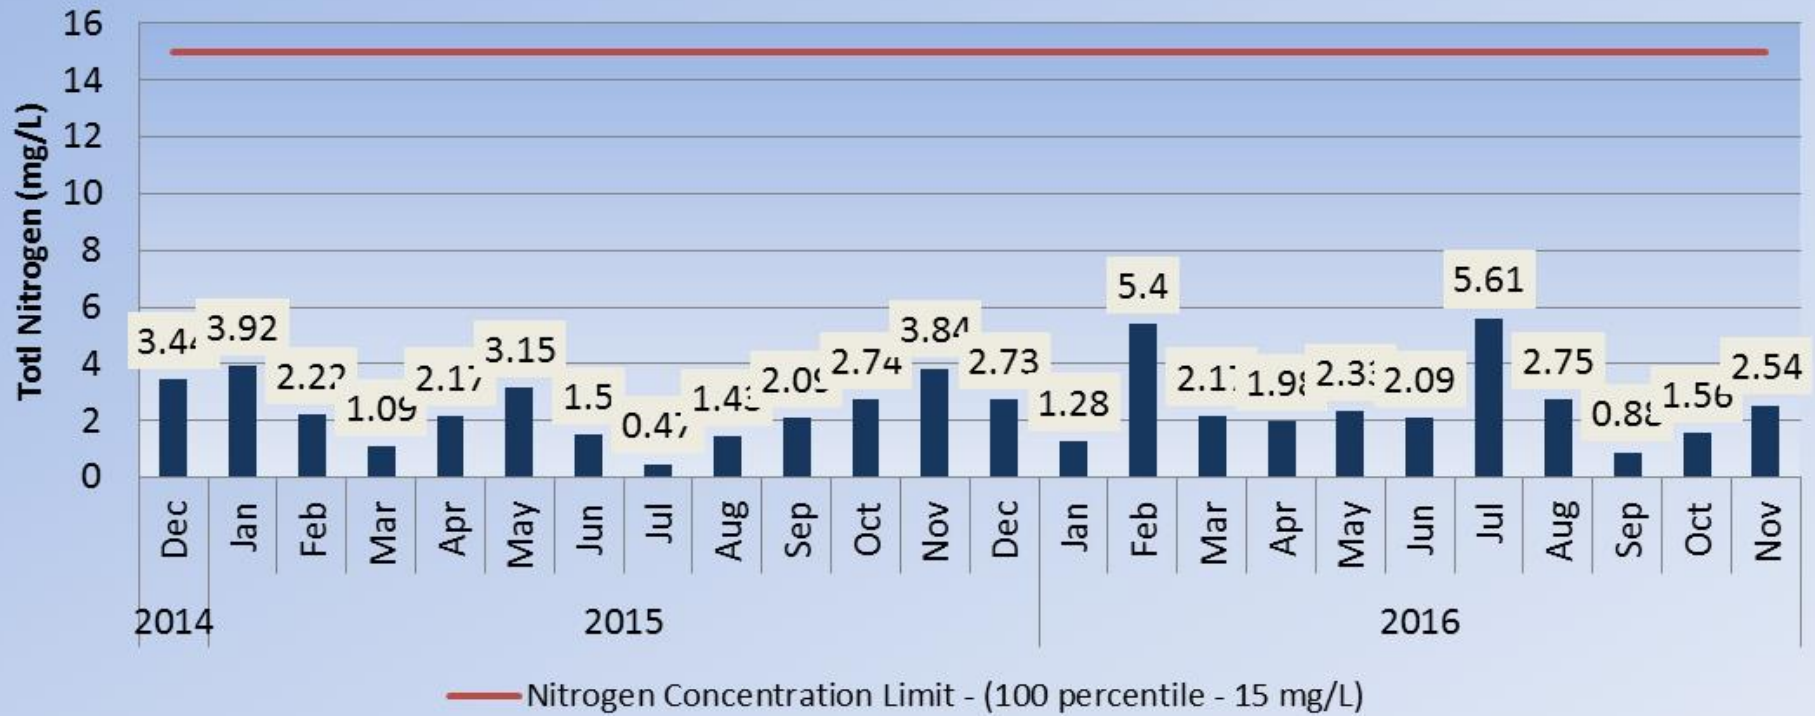

* All values are in mg/L

* 1 indicates grease and oil was not detected in that month's sample and was below the laboratory detection limit

Cabramurra Sewage Treatment Plant Final Discharge - pH
EPL 10379 Point 2
Sample collected immediately after UV treatment

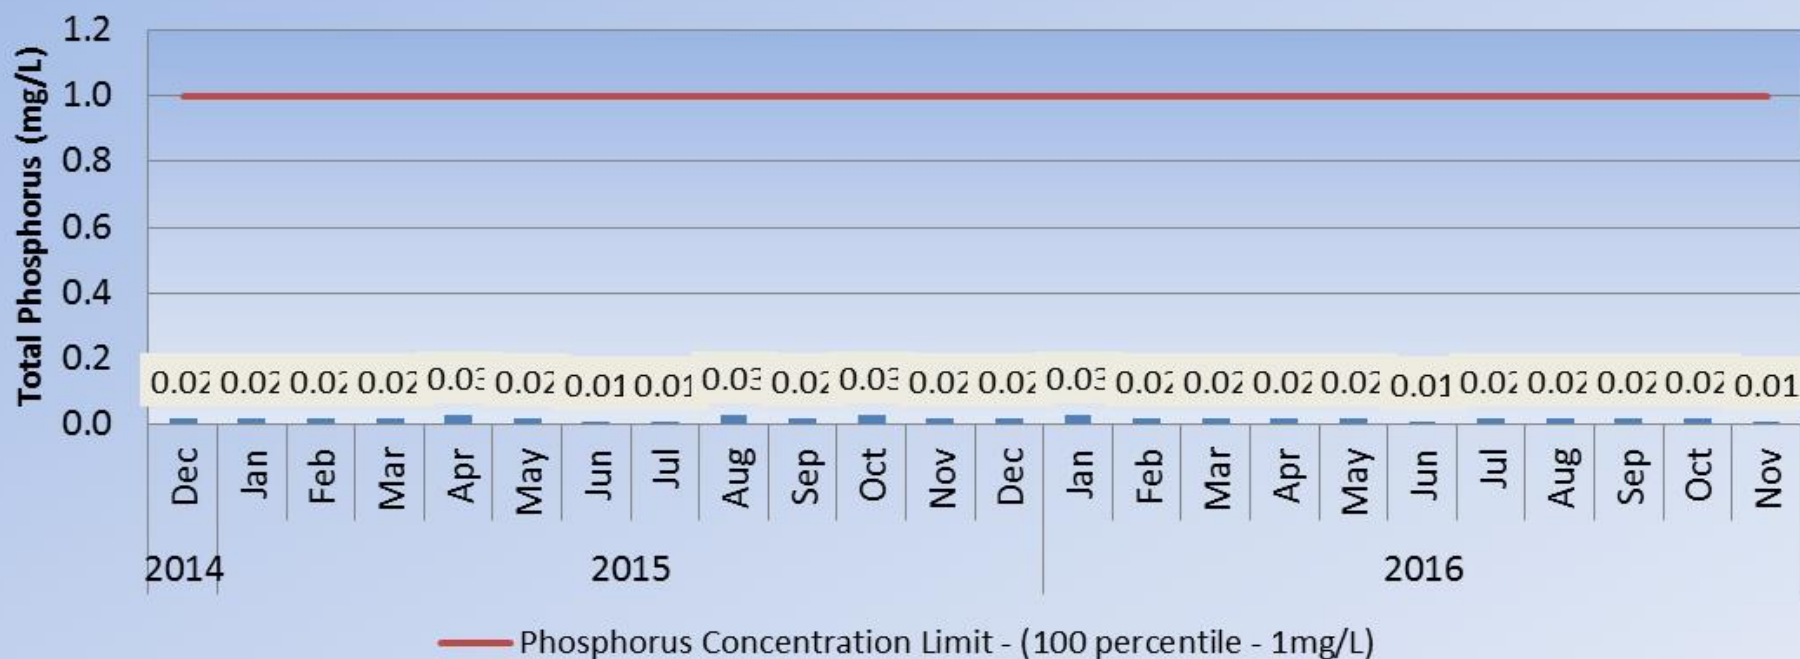

**Cabramurra Sewage Treatment Plant Final Discharge - Total Nitrogen
EPL 10379 Point 2
Sample collected immediately after UV treatment**

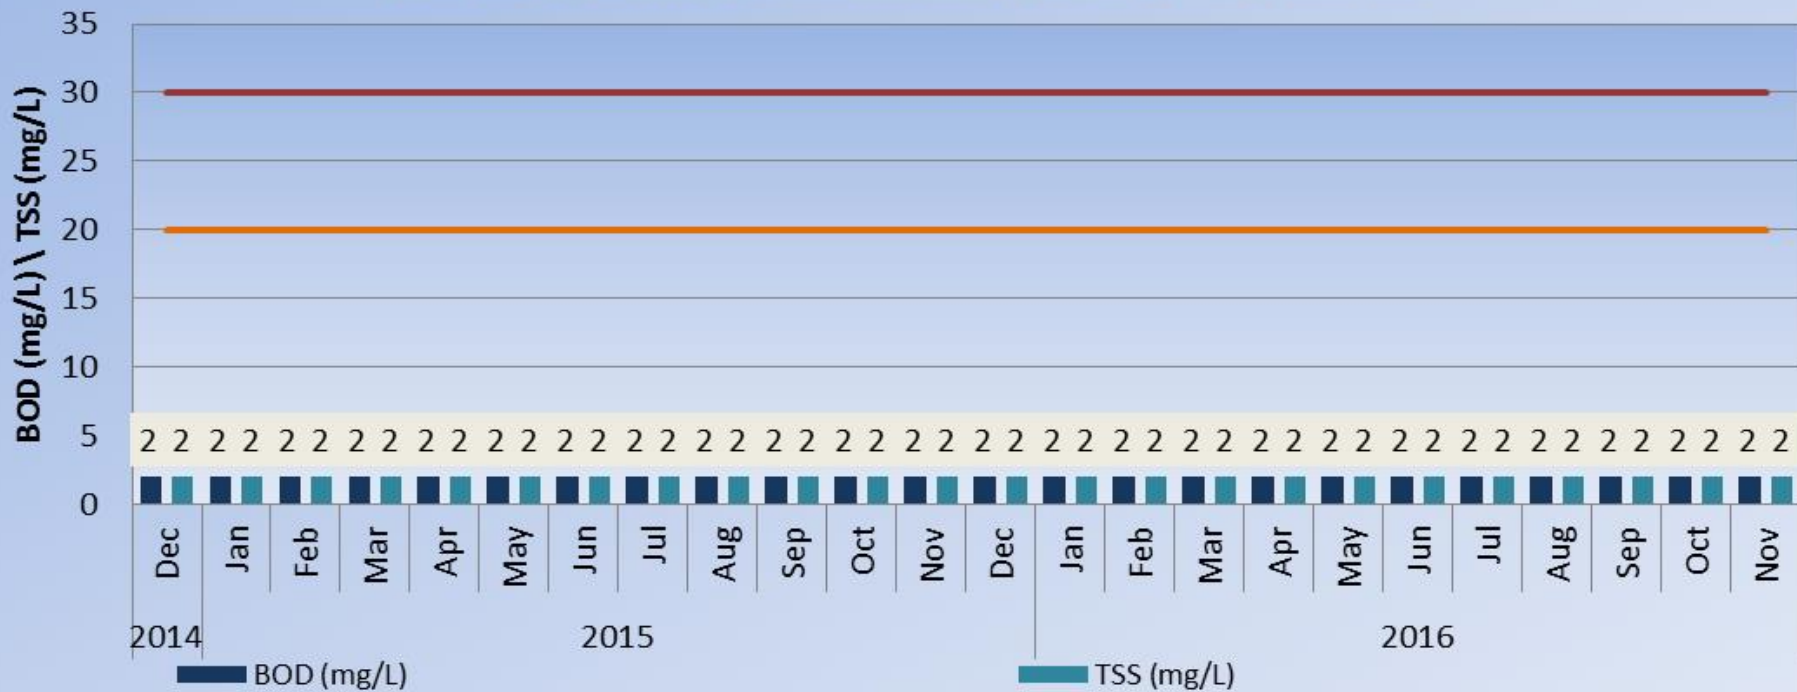

Cabramurra Sewage Treatment Plant Final Discharge - Total Phosphorus

EPL 10379 Point 2

Sample collected immediately after UV treatment

Cabramurra Sewage Treatment Plant Final Discharge - TSS & BOD
EPL 10379 Point 2
Sample collected immediately after UV treatment

— BOD Concentration Limit (100 percentile - 20mg/L)

— TSS Concentration Limit (100 percentile - 30mg/L)

Cabramurra Sewage Treatment Plant Final Discharge - Faecal Coliforms

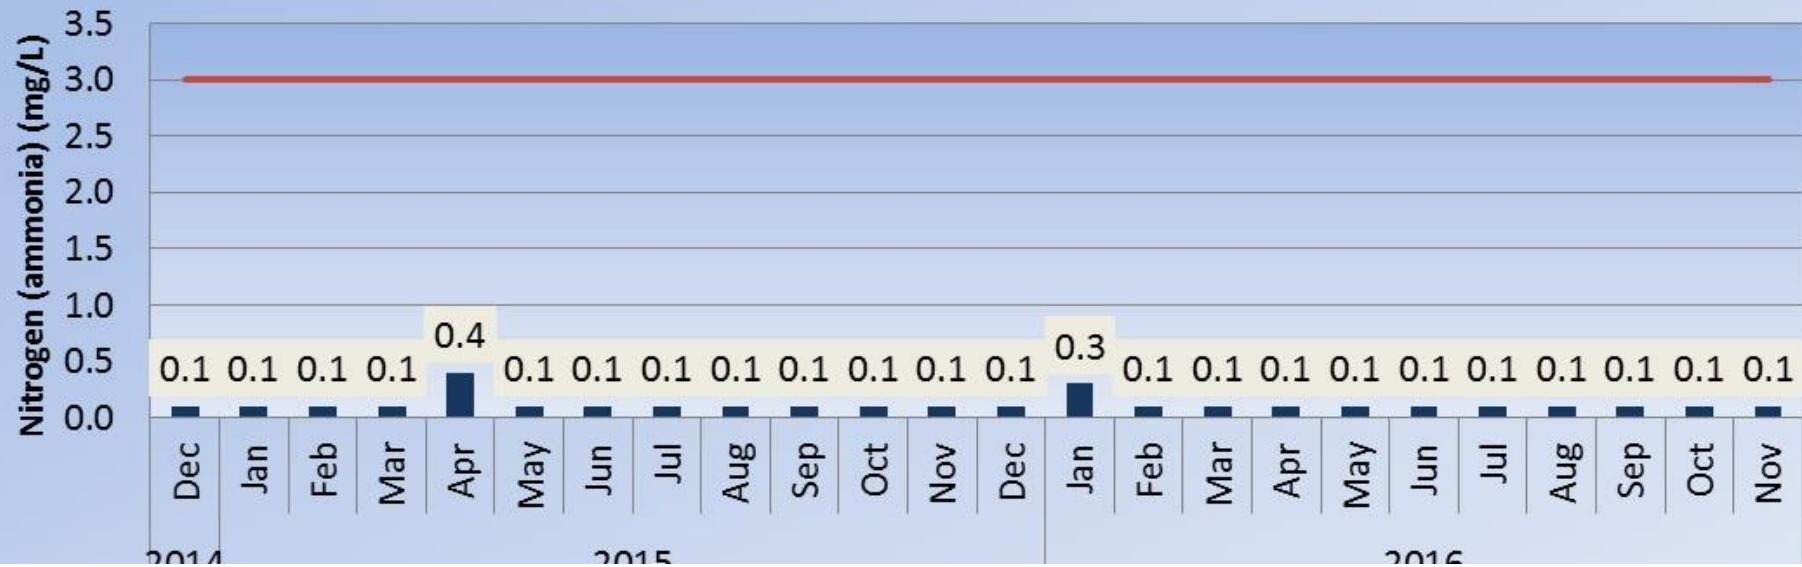

EPL 10379 Point 2

Sample collected immediately after UV treatment

— Faecal Coliforms Concentration Limit (90 percentile - 200 mg/L)

Cabramurra Sewage Treatment Plant Final Discharge - Nitrogen (ammonia) EPL 10379 Point 2 Sample collected immediately after UV treatment

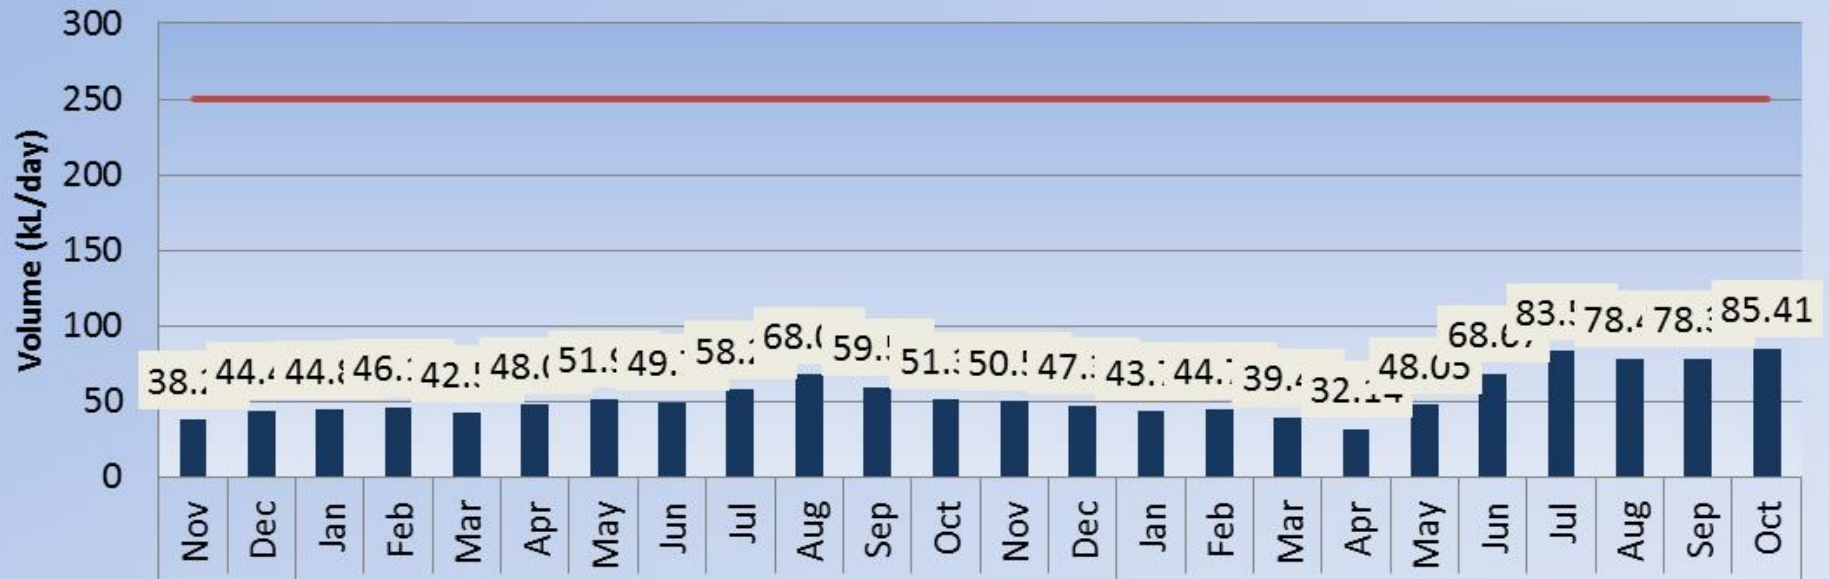

2014

2015

2016

— Nitrogen (ammonia) Concentration Limit - (100 percentile - 3mg/L)

Cabramurra Sewage Treatment Plant Final Discharge - Volume EPL 10379 Point 2 Daily discharge (kL / day)

2014

2015

2016

— Volume Discharge Limit (250kL/day)
