As the premises outlined in EPLs 10515, 10379 & 13161 do not have direct neighbours, Snowy Hydro Limited will develop and implement an appropriate emergency response plan specific for the emergency and potential impacts on surrounding communities. This plan will include allocating appropriate responsible people to notify and co-ordinate with affected community members. The following mechanisms appropriate to the circumstances may be adopted to notify and update surrounding community of an incident:

- Local media sources;
- Snowy Hydro Limited webpage updates and media releases;
- Telephone calls or doorknocking (where appropriate).

Actions taken by Snowy Hydro Limited Emergency Response Teams (ERTs) to combat the emergency will be guided by the Regional Emergency Response Handbooks as specific to the incident or emergency context.
