

Numbers - counting

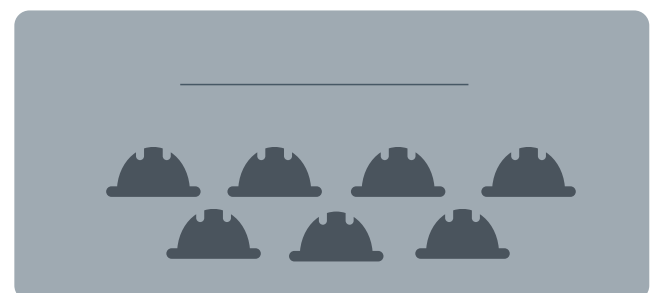

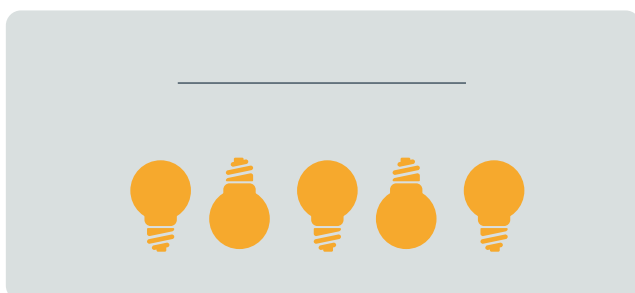

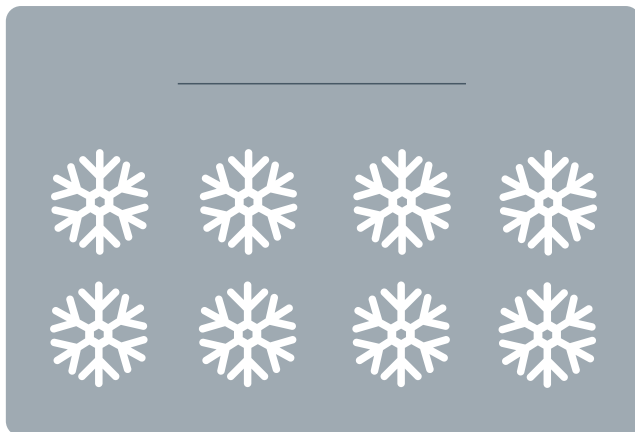

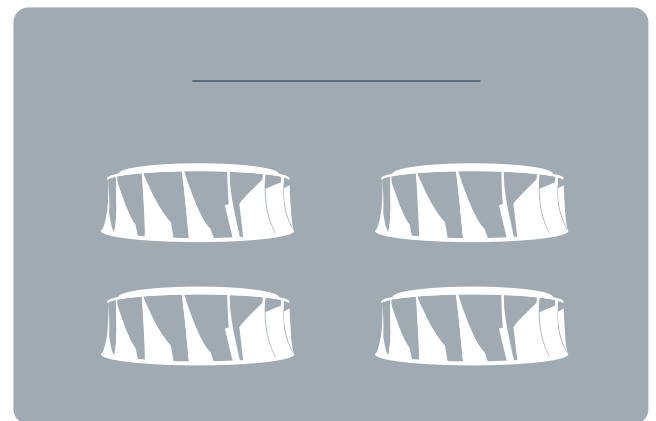

Overview

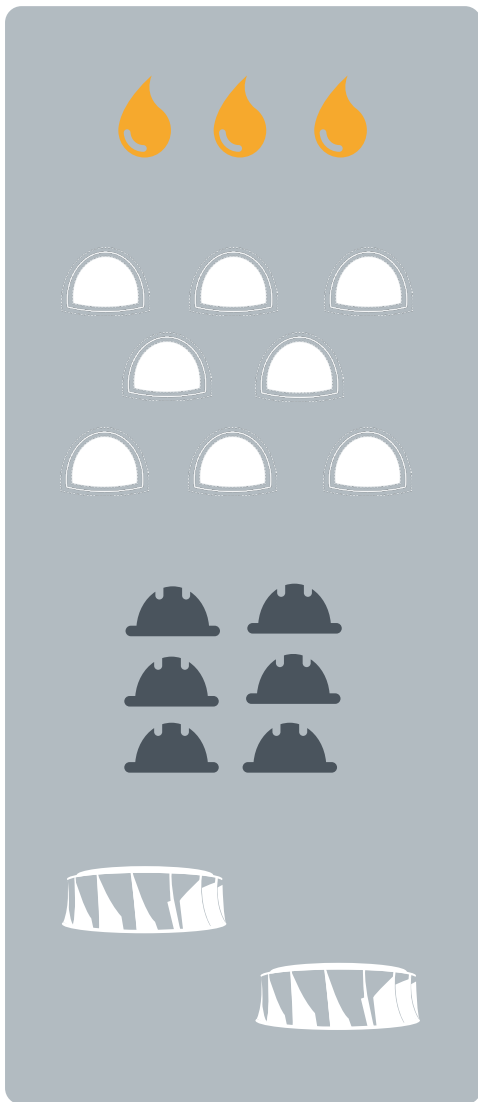

This colourful activity is fun for younger children to practice their number skills, while learning about hydro power and renewable energy.

Count how many in each group

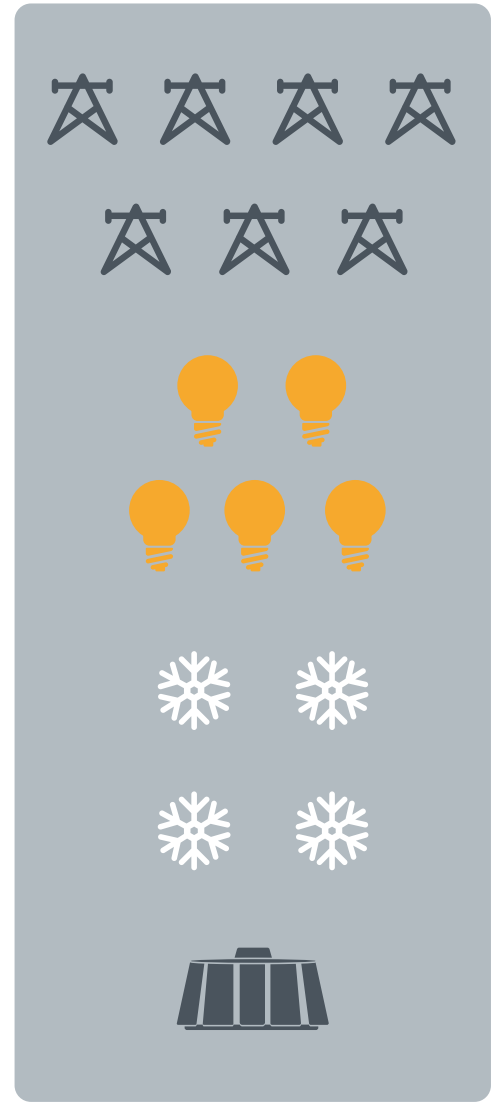

Example 5

Draw a line to match the numbers to the groups

7 3
2 6
4 8
5 1

Trace within the dotted line to find the number

S is for safety

W is for water

T is for turbine

E is for energy
