

## Snowy 2.0 video update

Our Snowy 2.0 pumped-hydro project is moving ahead in leaps and bounds, with main works well underway in the Snowy Mountains.

To keep you informed about site progress, Snowy Hydro is launching monthly video update emails.

Enjoy this month's video, which features Snowy Hydro Safety Manager Kelly Palmer looking at the Lobs Hole Ravine Road widening works, tunnel boring machine assembly, the water treatment plant on Pipeline Road and much more.

There's also a short worker profile with Snowy 2.0 principal contractor Future Generation's Electrical Supervisor, Dave Rosetta.

You can also find our project videos and more Snowy 2.0 information on our [website](#).
