## Our Company - The values

A strong corporate culture based on our company values

## The Snowy Scheme

Described as one of the civil engineering wonders of the modern world, the Snowy Scheme consists of nine power stations, 16 major dams, 80 kilometres of aqueducts and 145 kilometres of interconnected tunnels. The Snowy Scheme is a leading example of Australian innovation and ingenuity.

## History

The construction of the Snowy Mountains Hydro-electric Scheme from 1949 to 1974 is a well-documented part of our nation's history with over 100,000 men and women from more than 30 countries contributing to the success of the mighty Snowy Scheme.

## Snowy 2.0 project

Snowy Hydro's Snowy 2.0 Australia's largest committed renewable energy project is our next exciting chapter. It is a nation-building renewable energy project that will provide on-demand energy and large-scale storage for many generations to come.

## Red Energy

Snowy Hydro's retailer Red energy is 100% Australian-owned and the fourth-largest retailer in the NEM.

## Renewables

At Snowy Hydro, we have lived, breathed and delivered renewable energy to Australians through the mighty Snowy Scheme for generations. Partnering with Australian wind and solar companies, we are committed to continue and lead the charge to a renewable energy future

## Hunter Power project

Construction of a gas-fired power station at Kurri Kurri which will build on the existing capacity of the mighty Snowy Scheme and support our pumped-hydro expansion, Snowy 2.0. with dispatchable capacity when the needs of electricity consumers are highest.

## Education

Snowy Hydro is passionate about fostering the next generation of innovators. Our diverse education programs provide students with opportunities that will ignite their imagination and expand their STEM knowledge.

## Careers

Snowy Hydro currently employs about 600 people across the eastern seaboard of Australia. Our people have skills ranging from engineering to trades, commercial, legal, human resources and customer service.

## Water

The Snowy Scheme assets and operations are located mostly within Kosciuszko National Park. Snowy Hydro is responsible for managing the water that flows through its complex network of dams, tunnels and aqueducts.

## Community

Our major partnerships and community grants program for not-for-profit organisations and initiatives align with our community commitment pillars and our company values.
