

27 March 2024

Mr Chris Salkovic

Chief Executive Officer

Dams Safety NSW
4 Parramatta Square
12 Darcy Street
Parramatta NSW 2150

By email: info@damsafety.nsw.gov.au

Dear Chris,

RE: Snowy Hydro Submission of Annual Safety Standards Reports and Attestation Statement to 31 December 2023

Snowy Hydro Limited (**Snowy Hydro**) is the dam owner of the following 16 declared dams.

Declared Dams			
1.	Deep Creek Dam	9.	Khancoban Dam
2.	Eucumbene Dam	10.	Murray 2 Dam
3.	Eucumbene Saddle Dam	11.	Talbingo Dam
4.	Geehi Dam	12.	Tantangara Dam
5.	Guthega Dam	13.	Tooma Dam
6.	Island Bend Dam	14.	Tumut Pond Dam
7.	Jindabyne Dam	15.	Tumut 2 Dam
8.	Jounama Dam	16.	Tumut 3 Inlet Structure

Pursuant to the *Dams Safety Act 2015 (NSW)*, Snowy Hydro is required to submit an Annual Dam Safety Standards Report for each of the dams listed above to demonstrate Snowy Hydro's compliance with the dam safety standards for the calendar year ending 31 December 2023 by 31 March 2024.

Please find **attached**:

1. Attestation by Snowy Hydro's Managing Director and Company Secretary attesting to the accuracy of Snowy Hydro's annual dam safety reports; and
2. Snowy Hydro's annual dam safety reports (in the form required by Dam Safety NSW) for all 16 declared dams.

Snowy Hydro will make the reports available at our main office and on our website.

Should you require further information, please contact Michael Thornton, Dam Safety Manager on 0427 285 125.

Yours sincerely,

DocuSigned by:
Dennis Barnes
F28DC40681E041A...

Dennis Barnes

Managing Director and Chief Executive Officer

Snowy Hydro Limited

Statement of Attestation

As the office holders of the dam owner, we attest to the accuracy of the Annual Dam Safety Standard Reports provided by Snowy Hydro for the calendar year ending 31 December 2023 for the dams listed below.

Declared Dams			
1.	Deep Creek Dam	9.	Khancoban Dam
2.	Eucumbene Dam	10.	Murray 2 Dam
3.	Eucumbene Saddle Dam	11.	Talbingo Dam
4.	Geehi Dam	12.	Tantangara Dam
5.	Guthega Dam	13.	Tooma Dam
6.	Island Bend Dam	14.	Tumut Pond Dam
7.	Jindabyne Dam	15.	Tumut 2 Dam
8.	Jounama Dam	16.	Tumut 3 Inlet Structure

Name and signature of declared dam owner office holder attesting to the accuracy of this report	DocuSigned by: F28DC40681E041A..... Dennis Barnes
Position of the declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Name and signature of declared dam owner office holder attesting to the accuracy of this report	DocuSigned by: 125680CA68C6422..... Suzannah Fletcher
Position of the declared dam owner office holder attesting to the accuracy of this report	Company Secretary

Annual Safety Standards Report

Dams Safety NSW

Deep Creek Snowy Dam - 796

Deep Creek, Khancoban

Date of report: 26/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Deep Creek Snowy Dam
Dam location	Deep Creek, Khancoban
Type of dam	Concrete gravity
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	Low
Has an independent review been done?	Yes
Name of independent reviewer	
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	30/11/2023
Date of next planned consequence category assessment	30/11/2038
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	21/12/2023
Individual risk rating of the dam	2.8x10 ⁻⁶
Societal risk rating of the dam	3.0x10 ⁻⁶
Date of next planned risk report	21/12/2028

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022)	Peter Hill (Director and Principal Hydrologist, HARC)
---	---

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam)	Dr Mark Foster (Dams Engineer, Dam Consulting Services Pty Ltd)
---	---

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	11/12/2023
Planned date for next safety review	11/12/2038

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	05/11/2022
Planned date for next 'theoretical classroom' emergency exercise	22/11/2025

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	
Date of last practical emergency exercise	
Planned date for next practical emergency exercise	

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/wp-content/uploads/2024/01/Deep_Creek_Snowy_Dam_Annual_Safety_Standards_Rep

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Annual Safety Standards Report

Dams Safety NSW

Eucumbene Dam - 351

Eucumbene River, Eucumbene

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Eucumbene Dam
Dam location	Eucumbene River, Eucumbene
Type of dam	Earthfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	Extreme
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2024
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Signature	
Name of declared dam owner office holder attesting to the accuracy of this report	Suzannah Fletcher
Position of declared dam owner office holder attesting to the accuracy of this report	Company Secretary
Signature

Annual Safety Standards Report

Dams Safety NSW

Geehi Dam - 777

Geehi River, Kosciusko National Park

Date of report: 26/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Geehi Dam
Dam location	Geehi River, Kosciusko National Park
Type of dam	Rockfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High B
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal Hydrologist, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2034
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	21/12/2023
Individual risk rating of the dam	4.18x10 ⁻⁸
Societal risk rating of the dam	1.52x10 ⁻⁶
Date of next planned risk report	21/12/2028

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022)	Peter Hill (Director and Principal Hydrologist, HARC)
---	---

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam)	Dr Mark Foster (Dams Engineer, Dam Consulting Services Pty Ltd)
---	---

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	01/11/1987
Planned date for next safety review	30/12/2024

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	28/10/2021
Planned date for next 'theoretical classroom' emergency exercise	28/10/2024

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	Yes
Date of last practical emergency exercise	02/11/2023
Planned date for next practical emergency exercise	02/11/2028

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Annual Safety Standards Report

Dams Safety NSW

Guthega Dam - 355

Snowy River, Guthega

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Guthega Dam
Dam location	Snowy River, Guthega
Type of dam	Concrete gravity
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High B
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal Hydrologist, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2024
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Signature	
Name of declared dam owner office holder attesting to the accuracy of this report	Suzannah Fletcher
Position of declared dam owner office holder attesting to the accuracy of this report	Company Secretary
Signature

Annual Safety Standards Report

Dams Safety NSW

Jindabyne Dam - 776

Snowy River, Jindabyne

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Jindabyne Dam
Dam location	Snowy River, Jindabyne
Type of dam	Rockfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High A
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal Hydrologist, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2024
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	30/12/2022
Individual risk rating of the dam	2.34x10 ⁻⁶
Societal risk rating of the dam	2.56x10 ⁻⁵
Date of next planned risk report	30/12/2027

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022)

Mark Pearse (Principal Hydrologist, HARC)

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam)

Peter Hill (Principal Hydrologist, HARC)

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	28/06/2022
Planned date for next safety review	26/06/2037

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	Richard Frost (Senior Technical Director, GHD)

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	14/12/2023
Planned date for next 'theoretical classroom' emergency exercise	14/12/2026

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	Yes
Date of last practical emergency exercise	17/02/2022
Planned date for next practical emergency exercise	17/02/2027

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation

Annual Safety Standards Report

Dams Safety NSW

Jounama Dam - 387

Tumut River, Talbingo

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Jounama Dam
Dam location	Tumut River, Talbingo
Type of dam	Rockfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High C
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/07/2020
Date of next planned consequence category assessment	29/06/2035
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Signature	
Name of declared dam owner office holder attesting to the accuracy of this report	Suzannah Fletcher
Position of declared dam owner office holder attesting to the accuracy of this report	Company Secretary
Signature

Annual Safety Standards Report

Dams Safety NSW

Murray 2 Dam - 371

Khancoban Back Creek, Khancoban

Date of report: 26/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Murray 2 Dam
Dam location	Khancoban Back Creek, Khancoban
Type of dam	Concrete arch
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	Significant
Has an independent review been done?	Yes
Name of independent reviewer	
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2034
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	21/12/2023
Individual risk rating of the dam	3.4x10 ⁻⁶
Societal risk rating of the dam	6.6x10 ⁻⁶
Date of next planned risk report	21/12/2028

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022) Peter Hill (Director and Principal Hydrologist, HARC)

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam) Mark Foster (Dams Engineer, Dam Consulting Services Pty Ltd)

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	01/06/1992
Planned date for next safety review	31/12/2024

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	28/10/2021
Planned date for next 'theoretical classroom' emergency exercise	28/10/2024

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	Yes
Date of last practical emergency exercise	02/11/2023
Planned date for next practical emergency exercise	02/11/2028

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Annual Safety Standards Report

Dams Safety NSW

Talbingo Dam - 687

Tumut River, Talbingo

Date of report: 29/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Talbingo Dam
Dam location	Tumut River, Talbingo
Type of dam	Rockfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	Extreme
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	1/05/2021
Date of next planned consequence category assessment	1/05/2036
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure

Annual Safety Standards Report

Dams Safety NSW

Tantangra Dam - 356

Murrumbidgee River, Tantangra

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Tantangra Dam
Dam location	Murrumbidgee River, Tantangra
Type of dam	Concrete gravity
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High A
Has an independent review been done?	Yes
Name of independent reviewer	David Stephens (Senior Flood Modeller, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	20/12/2023
Date of next planned consequence category assessment	20/12/2038
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Signature	
Name of declared dam owner office holder attesting to the accuracy of this report	Suzannah Fletcher
Position of declared dam owner office holder attesting to the accuracy of this report	Company Secretary
Signature

Annual Safety Standards Report

Dams Safety NSW

Tooma Dam - 735

Tooma River, Kosciusko National Park

Date of report: 21/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Tooma Dam
Dam location	Tooma River, Kosciusko National Park
Type of dam	Earthfill
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High C
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal Hydrologist, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2034
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	30/12/2022
Individual risk rating of the dam	2.25x10 ⁻⁷
Societal risk rating of the dam	2.15x10 ⁻⁵
Date of next planned risk report	30/12/2027

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022)

Mark Pearce (Principal Hydrologist, HARC)

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam)

Peter Hill (Principal Hydrologist, HARC)

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	22/01/2015
Planned date for next safety review	22/01/2030

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA - last DSR completed in 2014 prior to Regulation 20(6) became applicable after 01/07/2022

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing.

[Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	28/10/2021
Planned date for next 'theoretical classroom' emergency exercise	21/10/2024

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	Yes
Date of last practical emergency exercise	02/11/2023
Planned date for next practical emergency exercise	02/11/2028

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Annual Safety Standards Report

Dams Safety NSW

Tumut 2 Dam - 775

Tumut River, Cabramurra

Date of report: 26/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Tumut 2 Dam
Dam location	Tumut River, Cabramurra
Type of dam	Concrete gravity
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	Significant
Has an independent review been done?	Yes
Name of independent reviewer	
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2034
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	21/12/2023
Individual risk rating of the dam	1.5x10 ⁻⁷
Societal risk rating of the dam	2.1x10 ⁻⁴
Date of next planned risk report	21/12/2028

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022) Peter Hill (Director and Principal Hydrologist, HARC)

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam) Mark Foster (Dams Engineer, Dam Consulting Services Pty Ltd)

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	Yes
How many incidents?	1
Topic/subject of the incident(s)	(i) a failure of a control system that had the potential to: (i) endanger the safe operation of the dam, or (ii) endanger the safety of a person, or (iii) cause damage to property or the environment, or (iv) cause an uncontrolled release of the contents of the dam,

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	01/07/1991
Planned date for next safety review	31/12/2024

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	22/11/2022
Planned date for next 'theoretical classroom' emergency exercise	22/11/2025

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	
Date of last practical emergency exercise	
Planned date for next practical emergency exercise

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
Signature	
Name of declared dam owner office holder attesting to the accuracy of this report	Suzannah Fletcher
Position of declared dam owner office holder attesting to the accuracy of this report	Company Secretary
Signature

Annual Safety Standards Report

Dams Safety NSW

Tumut Pond Dam - 774

Tumut River, Cabramurra

Date of report: 26/03/2024

Introduction

The Annual Dams Safety Standards Report demonstrates the declared dam owner's compliance with the dam safety standards set out in the Dams Safety Regulation 2019 (the Regulation).

Every year, declared dam owners must lodge a separate report for each of their declared dams with Dams Safety NSW by 31 March.

The report covers the period 1 January to 31 December of the previous calendar year.

Section 1 - Declared dam identification details

Question	Answer
Dam name	Tumut Pond Dam
Dam location	Tumut River, Cabramurra
Type of dam	Concrete arch
Main purpose of dam	Hydroelectric
Other	
Is the dam built on a river, stream or watercourse?	Yes
Name of dam owner	Snowy Hydro Limited
ACN number	090574431

Section 2 - Dams safety standards

Consequence category of dam - Regulation, Part 3

The dam consequence category is a rating of potential impacts resulting from a dam failure. It must be assessed:

- within 6 months of the dam being declared
- at least once every 15 years
- after any significant change in the number of people likely to be affected by a dam failure
- or if required by Dams Safety NSW. [Regulation, subclause 7 \(2\)](#).

Question	Answer
Dam consequence category	High C
Has an independent review been done?	Yes
Name of independent reviewer	Peter Hill (Principal Hydrologist, HARC)
Why has no independent review been done?	
Do you know the date of the last consequence category assessment by a competent person? Regulation, subclause 3 (1)	Yes
Date of the last consequence category assessment	01/08/2019
Date of next planned consequence category assessment	01/08/2034
Has the number of people likely to be affected by a dam failure changed since the last consequence category review?	No

Section 2 continued - Dams safety standards

How was this checked?

Study and report by consultant

Other

Documenting the dam safety management system

Question	Answer
Is the dam safety management system fully documented?	Yes
If no, what percentage of the dam safety management system documentation is complete?	
How did you confirm this percentage?	
Does the dam safety management system apply to more than one dam?	Yes

Implementing the dam safety management system

Question	Answer
Is the dam safety management system fully implemented at this dam?	Yes
If no, what percentage of the dam safety management system is implemented?	
How did you confirm this percentage?	

Section 2 continued - Dams safety standards

Dam safety management system review

Question	Answer
Since implementing your dam safety management system, have you reviewed it?	Yes
Date of last review	26/09/2023

Assessment of societal and individual risk rating

The owner of a declared dam (other than a proposed dam) must use the risk management framework, [Regulation Part 5, clause 14](#) to produce a written report on all foreseeable risks to the dam:

- at least once every 5 years
- when a major change to the dam is proposed, and
- after any significant change in the number of people likely to be affected by a dam failure
- when required by Dams Safety NSW. [Regulation, clause 15.](#)

Question	Answer
Is your dam above the safety threshold?	No
Do you know the date of your last risk report?	Yes
Date of last risk report	21/12/2023
Individual risk rating of the dam	2.1x10 ⁻⁷
Societal risk rating of the dam	5.7x10 ⁻⁴
Date of next planned risk report	21/12/2028

Section 2 continued - Dams safety standards

Name of competent person and their organisation who signed off the risk report (if risk report recommenced after 1 July 2022) Peter Hill (Director and Principal Hydrologist, HARC)

Name of independent competent person and their organisation who reviewed the report (if risk report commenced after 1 July 2022 - for an extreme, high A or high B consequence dam) Mark Foster (Dams Engineer, Dam Consulting Services Pty Ltd)

Other safety requirements - Regulation, Part 6

The declared dam owner must report incidents that happen at or in relation to the dam to Dams Safety NSW. [Regulation, clause 19](#)

Question	Answer
Have you had any reportable incidents during the last calendar year?	No
How many incidents?	
Topic/subject of the incident(s)	

Section 2 continued - Dams safety standards

Safety review

The declared dam owner must ensure that a safety review to assess the overall safety of the dam is undertaken by:

- for an extreme or high consequence dam, other than a high C consequence dam—a team of at least 2 competent persons, or
- otherwise—a competent person

The declared dam owner must ensure that a safety review is carried out at least once every 15 years, and as soon as practicable after:

- a deficiency or weakness in the dam is identified
- there is a change in the accepted technology or methods used in one of the relevant specialties or design criteria for dams
- the dam consequence category changes, or
- it is required by Dams Safety NSW. [Regulation, clause 20](#)

Question	Answer
Date of the last safety review Regulation, subclause 20(2) .	01/04/1989
Planned date for next safety review	31/12/2024

For extreme and high consequence dams only

If the dam's consequence category is extreme, high A or high B, the safety review must be reviewed by a panel of at least 2 independent competent persons. [Regulation, subclause 20\(6\)](#).

Question	Answer
If Safety Review commenced after 1 July 2022 - names of independent competent reviewers and their organisation	NA

Section 2 continued - Dams safety standards

If the dam's consequence category is high C, the safety review must be reviewed by an independent competent person. [Regulation, subclause 20\(6A\)](#).

Question	Answer
Name of independent competent reviewed and their organisation	NA

Notification of significant changes to the dam

Before making any significant change to the configuration of the declared dam that may affect the safety of the dam, the dam owner must inform Dams Safety NSW of the proposed change in writing. [Regulation, clause 21](#)

Question	Answer
Has any significant change to the configuration of the dam been made during this calendar year?	No
Describe the change	
Is any significant change to the configuration of the dam planned?	No
Describe the change and when is it planned?	
Other	
Date	

Section 2 continued - Dams safety standards

Emergency exercises

The declared dam owner must ensure that staff who are involved in the operation of the dam undertake emergency exercises at least once every 3 years. [Regulation, clause 22](#)

Question	Answer
Have you done a 'theoretical classroom' emergency exercise?	Yes
Date of last 'theoretical classroom' emergency exercise Regulation, subclause 22(1) .	22/11/2022
Planned date for next 'theoretical classroom' emergency exercise	22/11/2025

For extreme or high consequence dams only

The declared dam owner must ensure that staff who are involved in operating the dam undertake practical emergency exercises at least once every 5 years, where possible including relevant agencies identified in the emergency plan. [Regulation, subclauses 22 \(3\) and 22 \(4\)](#).

Question	Answer
Have you done a practical emergency exercise?	No
Date of last practical emergency exercise	
Planned date for next practical emergency exercise	30/12/2024

Section 2 continued - Dams safety standards

Design and construction

Dam safety management system for design and construction

Question

Answer

Does the dam safety management system cover dam design and construction? [Regulation, Clause 12\(3\)](#)

Was the risk management framework used or is it currently being used to prepare a risk report at the dam design stage? [Regulation, clause 15\(2\)](#)

Certain work must be carried out by a person subject to a quality management system. [Regulation, subclause 23\(1\)](#)

Question

Answer

Have you ensured that design and construction are carried out by a person subject to an AS ISO 9001:2016 quality management system?

Independent competent persons must review work involving dam design. [Regulation, clause 24](#)

Question

Answer

For Extreme and High consequence category dams, provide the name of the independent person(s) and their organisation who reviewed or are reviewing the design [Regulation, clause 24](#)

For dams still in an early design phase, have you planned an independent competent person design review?

Section 3 - Additional information for Dams Safety NSW

Question	Answer
Date of last Emergency Plan review	26/09/2023
Date of last Operations and Maintenance Plan review	26/09/2023
Is last year's Annual Dams Safety Standards Report published on your website?	Yes
Provide the link to the report	https://www.snowyhydro.com.au/about/reports/

Section 4 - Attestation

The Attestation of the information provided in the form must be completed by the dam owner office holder(s):

Dam owner	Attesting office holder(s)
Company	<ul style="list-style-type: none"> • 2 directors, or • 1 director and 1 company secretary • The combined director and company secretary (where there is only 1 director)
Statutory state-owned corporation	Chief Executive Officer or Managing Director responsible for managing the operation of the statutory state-owned corporation in accordance with the general policies and specific directions of the board
Statutory corporation	Corporation with 2 or more members: <ul style="list-style-type: none"> • President, chairperson or another principal officer of the corporation • Sole corporation • The person who constituted the constitution • The person managing the affairs of the corporation
Government department	Secretary
Individual	Individual

Section 4 - Attestation continued

Declared dam owner office holder(s) attesting to the accuracy of this report

Name of declared dam owner office holder attesting to the accuracy of this report	Dennis Barnes
Position of declared dam owner office holder attesting to the accuracy of this report	Managing Director and CEO
