

# Our proud history I spy

## Overview

Over 100,000 men and women from more than 30 countries worked on the construction of the Snowy Scheme between 1949 and 1974. These workers were paramount to the success of one of the largest engineering feats the world has ever seen.

## Instructions

Spot each of the icons in the box below. Find the number of icons listed and colour each in as they are found.

Hint - choose a different colour for each icon set
