

# Numbers - counting

## Overview

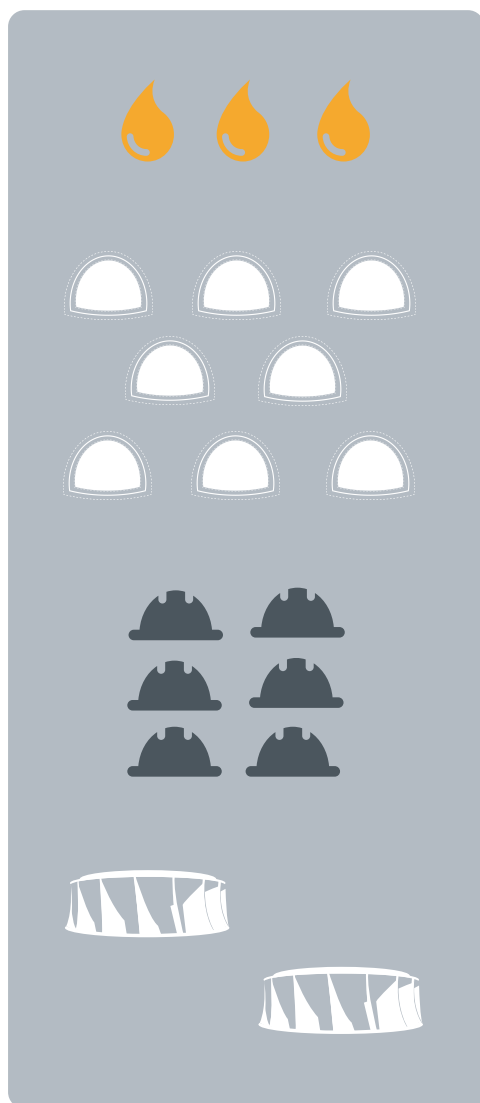

This colourful activity is fun for younger children to practice their number skills, while learning about hydro power and renewable energy.

### Count how many in each group

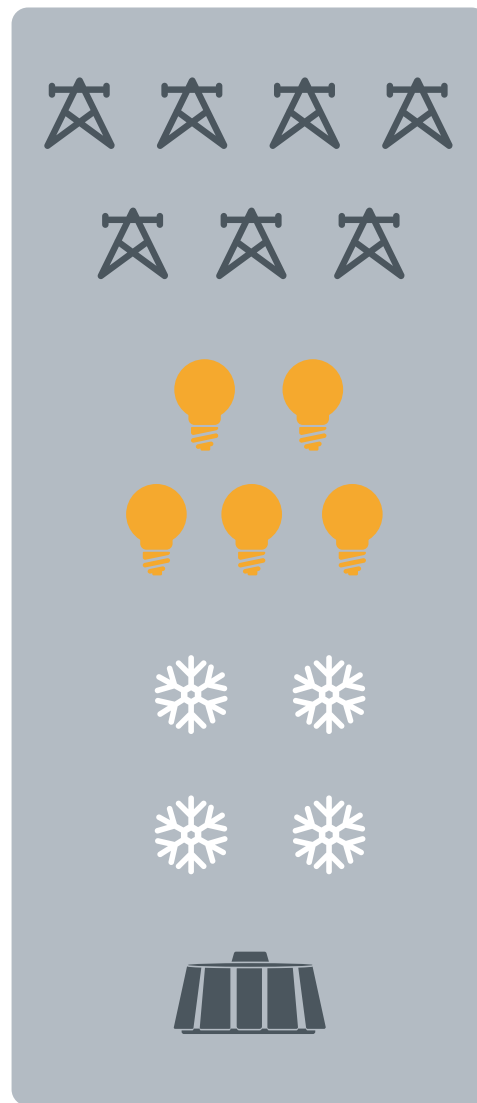

Example      5

Draw a line to match the numbers to the groups

7 3  
2 6  
4 8  
5 1

Trace within the dotted line to find the number

**S** is for safety

**W** is for water

**T** is for turbine

**E** is for energy
