POWERING LOCAL PROJECTS THROUGH OUR COMMUNITY GRANTS PROGRAM - ROUND 1 2025

At Snowy, supporting the communities where we live and work is at the heart of what we do. Through our Community Grants Program, we offer up to \$10,000 in funding to help bring local projects and initiatives to life across the Snowy Mountains.

These grants support initiatives that align with our key focus areas:

- Education and development
- Health and wellbeing
- Regional capacity building
- Environment and sustainability

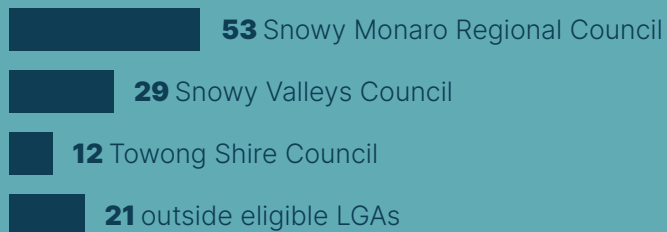

We were blown away by the response to the first round of our 2025 program! 115 applications full of great ideas and passionate people driving positive change in their communities.

We're thrilled to announce that we're awarding \$202,000 in funding to support a fantastic mix of community groups and events. From regional festivals and youth programs to environmental projects and mental health initiatives, the successful applicants are making a real difference.

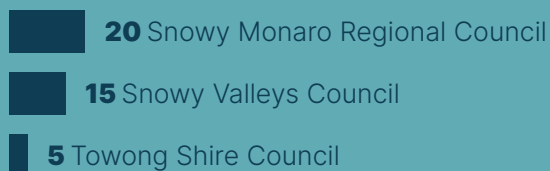

Each project tells a story of local pride, passion and purpose. Snowy is proud to play a small part in helping that story grow. Together, we're building stronger, more resilient communities across the Snowy Mountains.
